

VL522 Doubled Sided Speaker with Text

The Valcom VL522 Speaker with Text is built with two LED signs designed to display information in both directions. The VL522 provides audible and visual alerts to individuals within your facility notifying them of important information. It is ideal for hallways and common areas for K12 schools, hospitals, higher education facilities, manufacturing and industrial plants and areas where broadcasting a visual and audio message is preferred.

The multi-functional speaker can be used as a clock, talkback speaker and display messages for important emergency alerts and other information important to your organization.

Benefits

- **ADA compliant**
Keep your facility in compliance with ADA regulations
- **ShakeAlert Compatible**
Send earthquake early warning alerts
