

Sound360°

Sound360° Flat Panel Speaker 25/70 V. . . V-2273

Experience clear and intelligible audio announcements and background music in large open spaces with the **Sound 360°** speaker by Valcom. The sound technology behind the **Sound 360°** emits panoramic audio from its location and enables a large space to broadcast superior clarity. **Sound 360°** is designed with an industrial strength and a lightweight aluminum frame with a durable powder coat finish allowing it to be hung from high ceilings to cover large areas. The **Sound 360°** speaker is an alternative for customers who want higher acoustical quality and a greater reach than what most traditional speakers provide, while reducing the number of speakers required.
