The VIP-895-S Building Communication Panel is designed around daily communication needs for organizations who need to provide one-way communication to their employees. The VIP-895-S is equipped with a scheduler, so supervisors can schedule shift and break tones for your facility. VIP-895-S is focused around sending viable communications to an organizations' employees. Managers can pre-record messages, send live audio and visual notifications or upload wav files. If an emergency arises, the VIP-895-S can be used to send one-way emergency alert notifications via audio and text for LED signs.

Handset for one-way paging or intercom

Send clear visual notifications to our LED Signs
