V-9912P-12 Speaker Support Ring Plastic

(FOR ROUND 8-INCH SPEAKER ASSEMBLIES IN RETROFIT APPLICATIONS)

INSTALLATION INSTRUCTIONS

The V-9912P-12 plastic ring can be used in retrofit gypsum (sheetrock) ceilings. This product must be ordered in multiples of 12.

The V-9912P-12 may be conveniently installed from ground level by cutting a 12 inch (305mm) diameter hole in the ceiling.

Attach four J-nuts to the inside diameter of the ring and line them up with the holes.

Snap the ring at the break-slot and maneuver it up through the hole to rest above the ceiling.

Attach the speaker grille to the J-nuts of the ring with screws.
