

# Paging Horns

Clarity's SX-Series 15 and 30-Watt Paging Horns can be used with any Clarity Mixer-Amplifier. The horn is easily mounted and includes an I-beam mounting option for non-traditional locations. The weather-resistant feature for outdoor applications is ideal for parking lots, stadiums, parks and recreational areas. The horns are also ideal for indoors applications where you need excellent sound quality in a large space such as industrial plants, warehouses, schools, and transportation terminals.

## Features & Advantages
