

High-Efficiency Horn

The V-1038 30-Watt horn is a high efficiency horn equipped with a volume control and is ideal for high noise environments such as industrial, manufacturing and warehouses. A key benefit to the 30-Watt horn is its ability to disperse sound with lower energy consumption.

The V-1038 includes a Omni-Lock™ Mount for quick and easy installation on multiple surfaces including beams, walls, electrical boxes and other areas.

Omni-directional mounting base
