

Emergency Call Station

The Vandal-Resistant Emergency Call Station provides a sense of security in areas where your security team can't be. The VIP-9895 integrates with multiple SIP manufactured compatible devices.

The Emergency Call Station is an excellent choice for indoor or outdoor applications in building entrances and dormitories, hallways, parking lots, garages and public transit centers such as airports, bus and railroad stations.

Easily control and monitor virtually any type 3rd party system and device.
