

Vandal-Resistant FlexHorn™

Surface Mount

Surface Mount, Dual

The Valcom Vandal-Resistant FlexHorn™ is designed with the same functions of the traditional FlexHorn, but incorporates tamper-resistant faceplate and removal resistant screws. The Vandal-Resistant FlexHorn is also designed with a steel security baffle that prevents objects from penetrating the speaker. The horns are available as one-way or talkback. Ideal for indoor applications in schools, prisons, industrial or areas where speakers could be a target for vandalism.

Angle

Flexhorn is enclosed for additional security to prevent tampering
