

Emergency Call Plates

Calling for help is just a push of a button. Valcom's VIP-9896 is for interior use only and is ideally suited for public foyers, hallways, stairwells, transit centers, and parking garages.

The VE9870A allows you to retrofit your existing analog emergency phone to an advanced IP system that features page broadcasts, all call and monitoring.

Features & Advantages

Single Push Button

Calling for help is just one push of a button.

Automatic Talkback

Handsfree conversation.

Retrofit Capability (VE9870A only)

Use existing components and infrastructure.
