

The VALCOM logo is displayed in a bold, blue, sans-serif font. It is positioned in the upper right corner of the image, set against a dark blue background with a subtle star pattern. The logo is partially framed by a large, stylized blue arrow graphic that points downwards and to the right.

HelpPoints

> IP Emergency Call Tower VE9811

When a call is initiated, caller identification is sent to the receiving station and the blue light begins to flash indicating to those around that assistance is needed. They are sleek in design, vandal-resistant, rugged and lightweight. Ideal for parking lots, athletic fields and pathways. Customizable options include color choice, lettering (Emergency, Assistance, etc), WiFi, camera, solar powered and multiple buttons.

Proudly Made In The USA for Over 40 Years

Valcom, the largest provider of telephone integrated paging systems in the world, knows and understands customer needs.

For over 40 years, our focus has always been, and will continue to be, listening to and providing customer based solutions.

Valcom's unique and extensive experience in IP and Analog Voice Paging Systems, Mass Notification, IP Centric Multimodal Systems and Telecommunication Enhancements gives us a unique perspective. We are well known for providing guidance and assistance in implementing everything from the simplest paging system to the most complex mass notification solution. Our customer base includes most of the Fortune 500 companies,

the majority of highly secure US Government facilities, local government emergency service organizations, over 35,000 schools and quite possibly your own organization.

Virtually all of Valcom's products are engineered, manufactured and supported in our 120,000 square foot state-of-the-art facility in Roanoke, Virginia, USA. Valcom's component products are available through wholesale distributors and integrators.

Valcom has some of the industry's newest and most innovative manufacturing processes and works continuously to improve our customer solutions.
