The VE8095-S Building Communication Panel is designed around daily communication needs for organizations that need to provide one-way communication to their employees. The VE8095-S is equipped with a scheduler, so supervisors can schedule shift and break tones for your facility. VE8095-S is focused around sending viable communications to an organizations' employees. Managers can pre-record messages, send live audio and visual notifications or uploaded wav files. If an emergency arises, the VE8095-S can be used to send one-way emergency alert notifications via audio and text for LED signs.
