

SQUARE CEILING/WALL SPEAKERS

Round Hole Pattern

Square Hole Pattern

Valcom's Square Speakers are capable of reproducing voice paging and background music for a wide sound dispersion. The Square Speakers are designed with a round hole pattern or square hole pattern and are available as one-way or talkback. These speakers may be used for recessed ceiling or recessed wall-mount installations and are ideal for most interiors such as schools, offices, retail stores, and medical settings.

Features & Advantages

Uses Standard CAT 3, 5, & 6 Cable

Save money & time by using existing cable and infrastructure for installation.

Wide Sound Dispersion

More coverage with less speakers.

Sturdy Steel Grille

Protects the speaker from damage.
