

IP Gateways with Audio Port

Valcom's networked IP Gateway with Audio Ports enables voice access to one-way paging over an IP-based network. This allows page zone extension to anywhere on the network, so you can reach people across your organization.

Features & Advantages

Line Level Audio Output

IP interface to existing analog systems.

Digitalize and Transmits Audio Files

Clearer voice messages are transmitted unlimited distances over your network.

Relay Outputs

Activate strobes, LED signs or other equipment.
