

USB Multi-Messenger Device V-9989

Valcom's Multi-Messenger USB is a solid-state digital message repeater that stores up to 99 different messages in MP3 format on industry standard USB flash drives. The messages can be assigned continuous play, timed play with a built-in timer circuit, or triggered on the eight inputs the unit provides.

- Store Up to 99 Messages
- Triggered and/or Timed Playback
- Plays MP3 Files from USB Flash Drive
- Up to 4GB Flash Drives Supported
- No Drivers or Special Software Needed
- Auxiliary 12VDC Output for Wiring Sensors
- Playback Quality up to 128 Kbps
- Active Output Indication Trigger
- Built-in Monitor Speaker
- LED Status Indicator

USB Message-On-Hold Device V-9988

Traditional message-on-hold systems utilize cassette tapes that typically place limits on the length of music and messages available. Valcom's Messenger USB, a state-of-the-art digital audio playback device, eliminates time limitations and provides an infinite opportunity for continuous background music or music/message on hold playback. This new digital message-on-hold system supports MP3 file playback without any special drivers or software.

- Continuous Playback of Music and/or Messages
- Supports Flash Drives Up to 4 GB
- High Quality Audio Playback Up to 128 Kbps
- Built-in Monitor Speaker
- LED Status Indicator
- USB Flash Drive Included
- Free Generic On-Hold Message
- Free Personalized On-Hold Message
- \$100 Off a Customized On-Hold Message
- Pre-Recorded Audio File Included
